

Support for LED street lamp - for Tip 60mm

Product code:

Reference: M60CM

Technical specifications:

REFERENCE: MSF60M
Construction Material: Steel + Polyurethane enamel
Beam Angle (°): 110°
Certifications: CE - ROHS
IP : IP65-Outdoor
Dimensions (mm): 205 mm x 210 mm x 70mm Hole Ø 60mm Tip Ø 55mm
Warranty Years: 2

Product short description:

The LED street light bracket - 60mm tip - (Ø55mm tube) oven-baked painted steel is an accessory used to fix LED street lights on posts or light arms with a 60mm tip diameter. It is made of high-quality steel and has been oven-baked painted to increase its resistance to corrosion and protect it from adverse weather elements. 110° angle.

Product description:

Support for LED street lamp - Tip 60mm

Are you looking for the perfect support for your LED streetlights? Our 60mm tip LED streetlight bracket is the solution you need. Made with high-quality steel and baked-on paint to withstand adverse weather conditions, this bracket ensures a secure and long-lasting fixation for your LED streetlights.

In addition, its 110° tilt degree allows you to easily adjust the direction of the light for optimal lighting in any environment. With this bracket, you can be sure that your LED streetlights will stay in place and provide bright and efficient lighting.

Our bracket is made with baked-on polyester paint: Baked-on paint has many advantages: Durability: Baked-on polyester paint is highly resistant to abrasion, UV rays, and corrosion, making it ideal for outdoor use. In addition, its ability to adhere to a surface is very high, ensuring a long lifespan of the paint.

Uniformity: Baked-on polyester paint is applied in uniform and precise layers, ensuring a smooth and even finish. Moreover, thanks to the application of heat, the paint melts and adheres to the object evenly, ensuring greater durability.

Time-saving in manufacturing: Baked-on polyester paint dries quickly due to heat, reducing waiting time. Additionally, the baked-on painting technique is more efficient than other painting methods, as it can be applied in a single layer and does not require multiple drying processes.

Visit our online store factorLED and get our 60mm tip LED streetlight bracket today. Complete your installation and enjoy quality lighting in your outdoor space!
