With this universal bracket with 3,4" thread you can put the FISHER street lamp on suspension on cables. The cable holder allows you to adapt the LED street light to your installation so that you can hang the product.

### Product description:

Support for hanging on street lamp cable FISHER

With this LED streetlight accessory you can hang the streetlight over suspended cables.

The cable holder is made of steel, and comes with a 3.4" thread.

To install Street Lighting Fixtures from our Online Store remove the screws incorporated in the bracket, insert the Luminaire and fix it to the support cable using the screws incorporated in the product itself.
