

Audio Cable (LED Strip) 2x0.75mm 100 Meters

Product code:

Reference: 0010

Technical specifications:

REFERENCE: 0010
Nominal Voltage: 12V-250V
Construction Material: PVC + Kupfer
Certifications: UNE EN 50290-2-22
Dimensions (mm): 100m.
Temperature Range (°C): -15°+70°
Warranty Years: 5

Product short description:

100-METER ROLL - PURE COPPER - Get ready to discover the product that will completely revolutionize your experience in the world of audio and LED lighting! Allow me to introduce you to the Red/Black 0.75mm Parallel Cable, a true marvel of engineering destined to transform the way you connect with your audio devices and illuminate your spaces with monochromatic LED strips. This product is not just a cable; it's the key to exceptional sound and light quality.

Product description:

LED Strip Cable (Audio) 2x0.75mm - 100 Meter ROLL-

Get ready to discover the product that will completely revolutionize your experience in the world of audio and LED lighting! Allow me to introduce the Red/Black 0.5mm Parallel Cable, a true marvel of engineering destined to transform the way you connect with your audio devices and illuminate your spaces with monochromatic LED strips. This product is not just a cable; it is the key to exceptional sound and light quality.

Advantages of the Red/Black 0.75mm Parallel Cable:

1. Superior Audio Quality: This cable is specifically designed to ensure lossless audio transmission. Its flexible Class 5 polished copper construction according to the UNE EN 60228 standard guarantees a clear and crisp audio signal, free from interference or distortion.
2. Versatility: The parallel cable is ideal for audio connections and for installations of monochromatic LED strips. This means you can use it to connect your speakers and audio devices as well as to create stunning LED lighting effects in your home, office, or any other place you wish to illuminate.
3. Ease of Use: Its flat design and divisible capability without a cover greatly facilitate installation. You won't have to deal with tangled wires or complicated setups. With this cable, the connection is quick and straightforward.
4. Unparalleled Durability: This cable is built to withstand daily wear and tear as well as adverse conditions. Its PVC insulation provides robust protection against the elements, ensuring a long lifespan.
5. Safety: It complies with the strictest safety standards, meaning you can rely on its performance and rest assured that your devices and applications will be protected.

Where Can You Use It?

The possibilities are endless. From connecting your speakers and audio systems at home, in a recording studio, or at your workplace, to illuminating your spaces with monochromatic LED strips to create unique and exciting atmospheres. This cable is perfect for:

- Commercial Installations: Illuminate your business or establishment elegantly and attractively with monochromatic LED strips.
- Creative Lighting Projects: Unleash your imagination and create unique lighting effects at events, parties, exhibitions, and much more.
- Home Sound Systems: Enhance the audio quality of your home entertainment system and enjoy crystal-clear sound for your movies, music, and video games.
- Recording Studios: Music and sound professionals rely on high-quality cables to achieve precise and high-fidelity recordings.

At FactorLED, we ensure that our products come with a QUALITY GUARANTEE and provide all the necessary elements for DISTRIBUTION, IMPORTATION, or WHOLESale, including the technical specifications of each LED product.
