Product description:

LED Profile - Black and White - 2 meters - Aluminum - Model - U

With this **profile - White and Black**- made of **aluminum U 2 meters**, you will get an elegant way to place our LED strips and a greater heat dissipation from them. Includes staples.

Decorative aluminum profiles are used to make visible, timeless surface and pendant lights.

The profiles are oven lacquered with high quality epoxy resin paint, which gives our profiles a long useful life.

Our linear LED aluminum profiles are the versatile and timeless range, they can be the protagonist in the interior design of a space or adapt to it. Thanks to the available colors, it can provide a wide variety of visual sensations that will define the space from a new perspective, creating new sensations and redefining the space.

WHITE LED ALUMINUM PROFILE: TECHNICAL LIGHTING

It includes a white diffuser made of special PC that allows transmitting led light. It maintains 95% the tone of the one-color led, which is why it is mainly intended for technical lighting.

BLACK LED ALUMINUM PROFILE: DECORATIVE LIGHTING

It includes a black diffuser made with a special compound that allows the transmission of led light. It maintains the tone of the monocolour or RGB led at 95% but absorbs a large amount of light (around 65%) so it is mainly intended for decorative lighting.

Uses of the Aluminum Profile - 2 meters - Black and White

- Kitchens
- Living room
- lamps
- Bed headboards
- Showcases
- Railings
- Ladders
- decorative lighting
- technical lighting

At FactorLED we ensure that our products have a QUALITY guarantee and offer all the necessary elements for DISTRIBUTION, IMPORT or WHOLESALE, including the technical sheet of each LED product.
