

4 -Floor Anchor Bolt for Column Street lamp - Zinc Plated Steel - 16mm

Product code:

Reference: PERNO16MM

Technical specifications:

REFERENCE: PERNO16MM
Construction Material: Steel
Certifications: CE - ROHS
IP : IP65-Outdoor
Dimensions (mm): 350mmXM16
Warranty Years: 5

Product short description:

Set of 4 units for ground mounting for street lights. - The LED columns have a metal base that is levelled and fixed by means of nuts to the threaded rods inserted in the concrete foundation. Diameter 16mm for anchoring 4 to 6 metre high columns to the ground. Zinc-plated steel.

Product description:

Set of 4 Ground Anchor Bolts for Lighting Column - Zinc Plated Steel - 16mm

When you need to place a lighting column, the easiest and most stable way is to drive these zinc plated steel bolts into the concrete, allow the mix to set and then place the column on the bolts, using the bolts to give the column grip and verticality.

Zinc-plated steel bolts:

The process of zinc plating, or electro-zinc plating, is a process in which a layer of zinc is adhered to the steel to protect it against corrosion, which is deterioration of a material when it is in contact with air and moisture, thereby ensuring a long life for the protected steel.

Uses of Ground Anchor Bolts for Column - Zinc Plated Steel - 16mm

Parking
Gardens
Public street lighting
Private areas

At FactorLED we are committed to ensuring that our products are of QUALITY and offer the necessary elements for DISTRIBUTION, IMPORT or WHOLESALE, including the technical data sheet of each LED product.
