

Circular Ring - Black - Adjustable for GU10

Product code:

Reference: AROB986-R-N

Technical specifications:

REFERENCE: AROB986-R-N
Construction Material: Polycarbonate
Certifications: CE
Dimensions (mm): Ø110x27mm
Cut-out Size (mm): Ø80mm
Warranty Years: 3

Product short description:

The Circular Ring - Black - Adjustable for GU10 in polycarbonate is an elegant and functional solution for interior lighting, while also allowing for installation in high humidity areas and coastal saltwater areas, as it does not deteriorate like metals. The design allows for adjusting the direction of the light, making it ideal for highlighting specific elements in a room or creating a pleasant ambiance in any space. Super easy installation. It withstands coastal areas and high humidity without deteriorating as it is made of polycarbonate.

COMPATIBLE ONLY WITH LED BULBS, OTHER TYPES OF TECHNOLOGY MAY CAUSE DAMAGE TO THE INSTALLATION

Product description:

Circular Ring - Black - Adjustable for GU10

The BLACK adjustable Circular Ring for GU10 is an elegant and functional lighting accessory, designed to provide a flexible and precise lighting solution indoors.

The BLACK adjustable Circular Ring for GU10 and LED modules of dichroic type features a sleek finish that seamlessly integrates into any interior décor and adds a touch of sophistication. Additionally, its compact size and lightweight make it easy to install and handle.

The adjustable Circular Ring for GU10, made of PC (polycarbonate), offers several advantages when used in humid or coastal areas:

- **Moisture resistance:** The PC material used in the ring's manufacturing possesses moisture resistance properties. This means it can withstand high humidity conditions without damage or corrosion, making it suitable for use in areas with higher humidity levels.
- **Corrosion protection:** Being made of PC, the Circular Ring is resistant to corrosion caused by exposure to saltwater in coastal areas. This enables it to maintain its appearance and functionality even in harsh marine environments.
- **Durability:** The PC material used in its manufacturing is known for its durability and impact resistance. This allows the ring to withstand adverse conditions such as strong winds, water splashes, or sand typical in coastal areas.

This Circular Ring is specifically designed to accommodate GU10 bulbs and dichroic-type LED modules, which can be easily installed and replaced thanks to its simple and secure fastening mechanism.

At FactorLED, we ensure that our products come with quality assurance and provide all the necessary elements for distribution, importation, or wholesale sales, including the technical specifications of each LED product.
