

## Quick Connector - 2 Inputs - KV221-415 - for Electrical Cable

### Product code:

Reference: CNT-91173

### Technical specifications:

REFERENCE: CNT-91173  
Nominal Voltage: Max: 250V/4KV AC - 32A  
Construction Material: Flame retardant thermoplastic  
Certifications: CE - ROHS  
IP : IP20  
Dimensions (mm): 12.5x20.5mm  
Temperature Range (°C): -25°C ~ +95°C  
Warranty Years: 5

### Product short description:

You want to save time and money:  
The **quick connector 2 inputs - KV221-415 - for electrical cable** is used for fast and safe connections in all types of lighting and also in temporary and permanent electrical installations. With these quick and safe connectors, you achieve great cost savings in assembly.

### Product description:

Quick Connector - 2 Inputs - KV221-415 - for Electrical Cable

The **2-Input Quick Connector, model KV221-415**, has been designed to **facilitate fast and secure electrical connections** in a wide variety of lighting systems, as well as in temporary and permanent electrical installations.

These connectors offer an efficient and reliable solution to achieve significant savings in assembly costs. The ability to pre-assemble cable sets in advance streamlines the assembly process, providing an additional advantage in terms of temporal efficiency. Furthermore, the implementation of these quick and secure connectors not only ensures a robust connection but also contributes significantly to resource optimization and cost reduction during the installation phase.

At FactorLED, we ensure the quality of our products and provide all the necessary elements for DISTRIBUTION, IMPORT, or WHOLESALE, including the technical datasheet of each LED product.
