

RGB LED Strip Controller 220V - 8W/M

Product code:

Reference: 91825

Technical specifications:

REFERENCE: 1037
Rated Power : 8w
Nominal Voltage: 220-240 V AC
Construction Material: Thermoplastic
Certifications: CE
IP : IP44
Diode Life Expectancy (H): 30.000
On/Off Cycles: 100.000
Warranty Years: 3

Product short description:

Experience the power of customization with our 220V **RGB LED Coil Controller**, with 8W per meter power. With this intuitive interface, you can create **amazing effects** on your RGB LED strips at the touch of a button. Transform your environment with vibrant colors and create unique atmospheres - total control at your fingertips!

Product description:

The **RGB LED controller** is a device that allows you to control the functions of your RGB LED strips from a single button. With it, you can change the color, speed and effect of the LED strips.

The controller has several functions:

1. Executes all effects automatically.
2. Wave effect, forward and backward
3. Two-color jump effect
4. Color fade effect
5. Flicker effect with jump
6. White fade effect
7. Flicker effect
8. Set Color

This controller is a must-have accessory for anyone with RGB LED strips. It allows you to control the functions of your LED strips easily and simply, and create a personalized atmosphere in your home.
