Technical Datasheet

RGB LED Strip Controller 220V - 8W/M

Product code:

Reference: 91825

Technical specifications:

REFERENCE: 1037 Rated Power: 8w Nominal Voltage: 220-240 V AC Construction Material: Thermoplastic Certifications: CE IP: IP44 Diode Life Expectancy (H): 30.000 On/Off Cycles: 100.000 Warranty Years: 3

Product short description:

Experience the power of customization with our 220V RGB LED Coil Controller, with 8W per meter power. With this intuitive interface, you can create amazing effects on your RGB LED strips at the touch of a button. Transform your environment with vibrant colors and create unique atmospheres - total control at your fingertips!

Product description:

The RGB LED controller is a device that allows you to control the functions of your RGB LED strips from a single button. With it, you can change the color, speed and effect of the LED strips

The controller has several functions:

- 1. Executes all effects automatically. 2. Wave effect, forward and backward
- 3. Two-color jump effect 4. Color fade effect
- 5. Flicker effect with jump
- 6. White fade effect 7. Flicker effect
- 8. Set Color

This controller is a must-have accessory for anyone with RGB LED strips. It allows you to control the functions of your LED strips easily and simply, and create a personalized atmosphere in your home.
