

LED Circular Neon - 360° Flexible - 220V - Coil 20m 16mm - 8W/M

Product code:

Reference: 91840

Technical specifications:

REFERENCE: 91840
Rated Power : 8w
Nominal Voltage: 220-240 V AC
Construction Material: PVC
Beam Angle (°): 360°
Certifications: CE - ROHS
IP : IP65-Outdoor
Diode Life Expectancy (H): 35.000
Temperature Range (°C): -20°C ~ +55°C
On/Off Cycles: 100.000
Other Information: Pin rectificador CIRCULAR 360°
Energy Rating (2021-UE-2019/2015): A++
Warranty Years: 3

Product short description:

Simplify your experience with the Circular LED Neon thanks to the 220V Rectifier Cable. Connect it directly to the mains, eliminating the need for a transformer. Get now the efficient solution for an easy and hassle-free installation! Power your lighting in a practical and hassle-free way.

Product description:

Rectifier Cable 220V Neon LED CIRCULAR - 360° -8W

Experience innovation with our **Rectifier Cable** designed for the 360° **Circular LED Neon** at 220V. This revolutionary device **eliminates the need for a transformer**, simplifying installation and allowing you to enjoy the brightness of your single-color LED neon more efficiently.

This current rectifier connects directly to the 220V mains, providing a continuous and stable source of power for your LED neon. The versatility of this cable allows for easy integration into a variety of applications, from indoor decoration to outdoor signage, providing 360° wrap-around illumination.

Current rectifying technology ensures consistent, flicker-free performance, delivering an exceptional visual experience. In addition, by not requiring an additional transformer, installation complexity is reduced, saving time and effort.

This rectifier cable is compatible with single-color LED neon, ensuring versatile adaptability to your lighting needs. Its durable and resistant design guarantees **safe and reliable connection**, giving you peace of mind and confidence in your lighting system.

Purchase our 220V Neon LED Rectifier Cable and discover a simpler and more efficient way to illuminate your spaces. Transform your environment with a bright and enveloping light without complications, taking lighting to a new level of comfort and style.
