

## Column BRUSSELS Black - 3 meters - 4 meters

### Product code:

Reference: 91857

### Technical specifications:

REFERENCE: 91857

Construction Material: Steel + Polyurethane enamel

Certifications: CE

Dimensions (mm): 2Meters - 3Meters

Other Information: Steel tube: 2mm (Ø89mm x2mm) (Ø60x2mm)

### Product short description:

Immediate service: Column, mast, pole for street lighting, residential areas, roads, urbanizations.

**Made of galvanized steel tube Ø89mm ja Ø60mm**, with a thickness of 2mm in diameter, painted in **textured black** - RAL9005 - of the highest quality polyester for great hardness and resistance. Easy transport and assembly, can be mounted in 3 or 4 pieces, which **greatly facilitates installation** by a single person.

### Product description:

Column BRUSSELS Black - 3 meters - 4 meters

Carefully designed to enhance any space with its imposing presence, the "**BRUSSELS**" model **column** or lighting mast stands out for its high-strength polyester powder-coated finish in an elegant textured **Black RAL9005 color**. This color choice not only adds a touch of modernity and sophistication but also ensures durability and protection against natural elements and the wear of time, preserving its unchanging beauty throughout the years. **Easy transport and assembly** can be assembled in 3 or 4 pieces, which facilitates installation by one person.

Its impeccable construction in galvanized steel tube of **Ø89mm ja Ø60mm** with a **thickness of 2mm** guarantees a robust and reliable structure, making it a column capable of withstanding the demands of continuous use in various environments, whether in urban areas, parks, squares, or residential areas. The "BRUSSELS" column embodies durability, and its design has been perfected to face adverse weather conditions, ensuring that the light continues to shine even in the most challenging situations.

One of the most outstanding features of this lighting column is its versatility, offering two height options: 3 meters and 4 meters. Thus, you can choose the option that best suits your specific lighting needs, whether to create a welcoming atmosphere in pedestrian areas or provide broader illumination in open and extensive spaces.

Its clever ability to be disassembled into 1-meter pieces facilitates transportation and logistics, reducing associated costs and ensuring a hassle-free installation. The assembly is a straightforward task, as the pieces fit easily with a simple push, allowing anyone to do it without the need for special technical skills.

But that's not all, the "BRUSSELS" column also stands out for its lighting bollard, which exhibits great toughness and resistance. With this feature, you can be sure that the column will easily support any luminaire you decide to install on it, offering powerful and bright illumination that enhances the aesthetics and safety of the surroundings.

The "BRUSSELS" model lighting column is extremely versatile and can be used in a wide variety of environments and applications. Some of the places where this column can be employed include:

1. **Urban spaces:** The "BRUSSELS" columns are ideal for illuminating streets, avenues, pedestrian walkways, and squares in urban areas. Its elegant design and resistance to adverse weather conditions make it a perfect choice to enhance the safety and aesthetics of the city.
2. **Parks and gardens:** These columns can be installed in public or private parks and gardens, providing cozy and efficient lighting for people to enjoy these spaces during the night. Furthermore, their resistance to wear ensures prolonged use even in green areas with high visitor traffic.
3. **Residential areas:** The "BRUSSELS" column is also suitable for illuminating streets and common areas within residential communities and urbanizations. It helps improve security and creates a pleasant atmosphere for residents.

# Technical Datasheet

- 4. **Shopping centers and commercial areas:** These columns can be used in outdoor shopping areas, food courts, and recreational zones in shopping malls, providing effective lighting that enhances the customer experience.
- 5. **Industrial and business spaces:** Industrial parks and business areas can also benefit from this column to provide reliable lighting in work areas and parking zones.
- 6. **Parking lots and transit areas:** The "BRUSSELS" column is an excellent choice for illuminating parking lots, both public and private, ensuring adequate visibility and enhancing the safety of vehicles and pedestrians.
- 7. **Recreational and sports centers:** In sports complexes, playgrounds, and recreational areas, these columns offer suitable lighting for nighttime activities.
- 8. **University campuses and schools:** Educational campuses can use this column to provide effective lighting in areas such as courtyards, pathways, and parking lots.

In summary, the "BRUSSELS" model lighting column goes beyond being a simple support for lights; it is a perfect combination of elegance, durability, and functionality, designed to illuminate and beautify any urban or residential space. Its meticulous design, high-quality construction, and ease of assembly make it an exceptional choice for those seeking the best in public and landscape lighting.
