

Motion Sensor for LED Profiles - 12V - 24V

Product code:

Reference: 2680-PRO

Technical specifications:

REFERENCE: 2680
Nominal Voltage: DC 12-24V
Construction Material: Aluminium+PC
Certifications: CE - ROHS
Diode Life Expectancy (H): 20.000
Dimensions (mm): 42*10mm
Frequency (Hz): 50/60Hz
On/Off Cycles: 100.000
Starting Time (s): 0,2s
Other Information: 10A
Control modes: Infrared
Energy Rating (2021-UE-2019/2015): A+
Warranty Years: 3

Product short description:

Motion Sensor for 12V-24V single-colour LED strip profiles This sensor automatically activates the lighting when it detects movement, offering a practical and efficient solution to keep your spaces illuminated when you need it most. One of its main advantages is its **ability to easily adjust to the type of profile in which it is installed**, guaranteeing perfect integration and optimum performance in any environment.

Product description:

Motion Sensor for LED Profiles - 12V - 24V

Discover our innovative Motion Sensor designed specifically for 12V-24V single-colour LED strip profiles! This sensor offers the convenience of automatically switching on lights when it detects motion, providing an efficient and practical solution for your lighting needs.

One of the main advantages of this model is its versatility, as it can be adjusted and positioned according to the type of profile in which it is installed. This means you can easily adapt it to different configurations and spaces, maximising its efficiency and performance.

Installation is simple: you only need to drill a hole in the profile's opal diffuser to house the sensor, ensuring discreet and effective integration. Once installed, the sensor will activate the LED strip as soon as it detects movement and keep it on for 40 seconds after the movement stops, providing the perfect amount of light when you need it most.

With our Motion Sensor, enjoy smart and efficient lighting that adapts to your needs, providing comfort and convenience in your home or office - make your lighting experience even more practical and comfortable with this innovative device!
