

5v and 24v touch switch + dimmer for LED profiles

Product code:

Reference: 91904

Technical specifications:

REFERENCE:

Rated Power : 5V-17W / 12V-42W / 24V-84W

Nominal Voltage: DC 12 -24V

Construction Material: Flame retardant thermoplastic

Certifications: CE

Frequency (Hz): 50/60Hz

Temperature Range (°C): -20°C ~ +55°C

On/Off Cycles: 100.000

Warranty Years: 3

Product short description:

switch + control (dimmer) touch that lets turn on turn off LED 12 and 24V strips hosted in aluminum profiles and also regulate their light intensity from 100% to shutdown. New article that you can buy in our online store.

Product description:

5v and 24v touch switch + dimmer for LED profiles

Main features:

Universal Compatibility: Works perfectly with 5V and 24V systems.

Touch Control: Adjusts the light intensity with a simple touch, providing an intuitive and modern user experience.

Elegant Design: Its compact and aesthetic design integrates seamlessly into any type of LED profile.

Easy Installation: Simple and quick set-up without the need for complicated tools.

Durability and Safety: Manufactured with high quality materials for long life and safe performance.

Benefits:

Customised Lighting: Adjust the brightness of your LED profiles to suit your needs, creating the perfect ambience for every occasion.

Energy Saving: Optimise energy consumption by adjusting the light intensity only when you need it.

Versatility: Ideal for a wide range of applications, from home lighting to commercial and decorative solutions.
