

LED CCT - RGB - 12-24V Controller Pack + Remote Control - 2.4GHz

Product code:

Reference: PACK-E3-RF-B4

Technical specifications:

REFERENCE: PACK-E3-RF-FUT092
Nominal Voltage: E3-RF: 12-24V - FUT092:3V
Colour: RGB / RGBW / RGB+CCT
Dimensions (mm): E3-RF: 100 x 40 x H17,6mm FUT092: 138 x 56 x 20mm
Frequency (Hz):
Temperature Range (°C):
Range (m):

Product short description:

Pack Controller 2.4GHz (12-24V) + 2.4GHz Remote Control. Allows switching between 3 output modes (RGB / RGBW / RGB+CCT) via a button. Enables individual control of each LED, adjusting speed, brightness, direction, length, and dynamic modes. Enjoy smart animations and customize colors and pixels for detailed effects. Wiring is instant and tool-free, with a control range of up to 30m. Offers adjustable brightness and color temperature.

Product description:

LED Controller Pack CCT - RGB - 12-24V + Remote Control - 2.4GHz

Pack Controller 2.4GHz (12-24V) + 2.4GHz Remote Control is an advanced and versatile solution designed to maximize the control and customization of your LED strips. This pack includes a controller that operates in the 12-24V range and a remote control that operates at 2.4GHz, providing an intuitive and effective user experience.

One of the standout features of this pack is its ability to switch between three different output modes: RGB, RGBW, and RGB+CCT. This can be easily done via a button, allowing you to adapt the lighting to various needs and preferences with just a touch. Whether you seek the vibrancy of RGB colors, the addition of white in RGBW, or the ability to adjust the color temperature in RGB+CCT, this controller offers the flexibility to suit any situation.

Main Features:

1. Variable Output Modes: Switch between RGB, RGBW, and RGB+CCT with a button.
2. Individual LED Control: Adjust speed, brightness, direction, length, and dynamic modes.
3. Smart Animations: Smooth and attractive transitions when turning on or off.
4. Detailed Customization: Adjustable colors and pixels for specific effects.
5. Easy Installation: Instant wiring without tools.
6. Long-Range Remote Control: Up to 30 meters control distance.
7. Adjustable Brightness and Color Temperature: Adaptable and customizable lighting.

Smart Animations and Customization: Enjoy smart animations when turning the lights on or off, adding a professional and sophisticated touch to your space. The ability to customize colors and pixel points allows you to achieve detailed and complex lighting effects, perfect for creative and professional lighting projects.

The wiring of this controller is instant and tool-free, making installation and configuration easy. Additionally, the remote control has a range of up to 30 meters, giving you the freedom to adjust your lighting from anywhere within this range.

Adjustable Brightness and Color Temperature: The controller offers precise adjustments of brightness and color temperature, allowing you to adapt the lighting to any situation or mood. Whether creating a cozy atmosphere at home or effectively lighting a commercial space, this pack provides the necessary tools to achieve it.

Applications and Uses: This pack is ideal for a wide range of applications, from creative lighting projects at home to professional installations in commercial and entertainment environments. It is perfect for those seeking quality, control, and creativity in their LED lighting systems. Whether for special events, artistic installations, or improvements in the ambience of any space, the Pack Digital Controller 2.4GHz (12-24V) + 2.4GHz Remote Control guarantees exceptional and versatile results.
