Single Color LED Controller Pack 12-24V + Remote Control C1 - 2.4GHz

Product code:

Reference: PACK-FUT036S-C1

Technical specifications:

REFERENCE: PACK-FUT036S-C1
Nominal Voltage: FUT036S: 12-24V - C1:3V
Colour: Single Color
Dimensions (mm): E3-RF: 100 x 40 x H17,6mm B2: 86 x 86 x 33mm
Frequency (Hz):
Temperature Range (ºC):
Range (m):

Product short description:

The Monochrome Controller Pack - 2.4GHz (12-24V) + C1 RF Remote Control (2.4GHz) offers a versatile solution for your lighting needs. The RF remote control allows you to turn the lights on and off, adjust the brightness, and control the intensity. Additionally, it provides a control range of up to 30 meters, allowing you to manage your lighting devices from a considerable distance.

Product description:

Single Color LED Controller Pack 12-24V + Remote Control - 2.4GHz

The Pack Controladora Monocolor - 2.4GHz (12-24V) + Control Remoto C1 RF (2.4GHz) is an advanced and adaptable solution designed to meet a wide range of lighting needs, both in residential and commercial environments. This pack includes a controller and a remote control, which together provide complete and easy-to-use control over your lighting devices.

Main Features

1. **Versatility of Use:** The pack is designed to offer maximum flexibility in managing your monochrome lights. The ability to adjust brightness and brilliance allows you to create the perfect ambiance at any time and place.

2. **RF Remote Control:** The B2 RF remote control uses 2.4GHz radio frequency (RF) technology, allowing reliable and interference-free wireless control. This technology ensures that signals are transmitted efficiently, even through walls and other obstacles.

3. **Extended Control Range:** With a control range of up to 30 meters, the B2 RF remote control provides the freedom to adjust the lighting from any location in the room or even from different rooms. This feature is especially useful in large spaces or commercial applications where direct access to the lights may be limited.

4. **Brightness and Brilliance Adjustment:** The remote control allows you to turn the lights on and off, as well as adjust brightness and brilliance according to your preferences. This functionality is ideal for adapting the lighting to different activities and times of the day, from soft light for relaxation to bright lighting for working or studying.

5. **2.4G Wireless Transmission Technology:** The 2.4GHz wireless transmission technology ensures a stable and long-range connection, providing quick and reliable response in controlling the lights. This technology minimizes interference and ensures that the lighting control is always precise.

Installation and Configuration

1. **Ease of Installation:** The pack is designed for quick and easy installation. The controller can be connected to 12-24V monochrome LED lights, and the remote control does not require complicated configurations. Simply connect the controller to the power source and the lights, and the remote control is ready to use.

2. **Compatibility:** The system is compatible with a wide range of monochrome LED lights, making it extremely versatile and suitable for various applications. Whether you need to illuminate a living room, an office, a warehouse, or a store, this pack offers a practical and efficient solution.

Applications and Uses: This pack is ideal for a variety of applications, both in residential and commercial environments. It is perfect for those seeking a versatile and efficient lighting solution that allows for detailed control and complete customization. Whether to create a cozy atmosphere at home, effectively illuminate work areas, or manage lighting in large spaces such as event halls or stores.

Transform your space with this advanced lighting control system and enjoy a lighting experience tailored to your needs and preferences.
