GU10 Socket

Product code:

Reference: 2594

Technical specifications:

REFERENCE: 2594
Construction Material: Ceramics
Base: GU10
Certifications: CE, CMIM, RoHS
IP : IP20
Dimensions (mm): Φ28*L100mm, Φ1.103*3.94in
Frequency (Hz): 50/60Hz
Warranty Years: 3

Product short description:

Discover the perfect combination of quality, durability, and energy efficiency with the Ceramic Socket GU10 LED Bulb Holder 220V. This innovative device provides you with the possibility to illuminate your spaces safely and efficiently with LED bulbs.

The bulb holder features a resilient ceramic socket, ensuring high heat resistance and excellent thermal dissipation. This feature not only extends the lifespan of the LED bulbs but also reduces the risk of overheating and potential damage to the electrical installation.

Product description:

GU10 Socket

Explore the exceptional combination of quality and durability offered by the GU10 Ceramic Lamp Holder for LED Bulbs. This device provides you with the opportunity to illuminate your spaces safely and highly efficiently with LED bulbs.

The lamp holder is equipped with a durable ceramic socket, ensuring optimal heat resistance and excellent thermal dissipation capacity. This feature not only significantly extends the lifespan of LED bulbs but also effectively reduces the risk of overheating and potential damage to the electrical installation.

The versatility of the socket allows you to use a wide range of GU10 LED bulbs available in the market, giving you the freedom to choose the light intensity and color temperature that best suits your needs. Whether you want to create a warm and cozy ambiance or a bright and illuminated space, this lamp holder adapts to your preferences.

Energy efficiency is another highlight of this product. Thanks to LED technology, the bulbs consume up to 80% less energy compared to traditional bulbs, resulting in significant savings on your electricity bill. Additionally, LED bulbs have a much longer lifespan, meaning you won't have to worry about frequent replacements.

The installation of the lamp holder is quick and simple. Connect the socket to the power source and twist the LED bulb, and you'll be ready to enjoy efficient and quality lighting within seconds.

The GU10 Ceramic Lamp Holder for LED Bulbs is the perfect choice for those who value quality, durability, and energy efficiency. Whether for residential, commercial, or workspace use, this product offers a reliable and modern solution for all your lighting needs. Illuminate your spaces with confidence and style.

At FactorLED, we ensure that our products are of guaranteed quality and provide all the necessary elements for distribution, importation, or wholesale, including the technical specifications of each LED product.
